

Dr. Patrick J. Broome

Charlotte Center for Cosmetic Dentistry at Southpark
Charlotte, North Carolina

ASK DR. BROOME

WHAT DO YOU LOVE ABOUT YOUR PROFESSION?

I love being able to help our patients remove their inhibition to smile. I love seeing each patient's personal transformation. A beautiful smile is not only attractive, it empowers people to let their inner beauty shine through!

HOW WOULD YOU DESCRIBE YOUR TREATMENT PHILOSOPHY?

Patient focused, conservative and committed to excellence would summarize our mindset. Each patient is different, so individual attention is critical to ensure we address our patients' needs and desires. A conservative treatment approach that utilizes the latest technology allows us to attain amazing results without being invasive.

WHAT CAN PATIENTS EXPECT WHEN THEY COME TO YOUR OFFICE?

A warm, welcoming environment that is different by design. Our office is designed to feel more like a home than a dental office. This relaxes patients and allows them to discover a new type of dentistry that is patient-centric, not volume based.

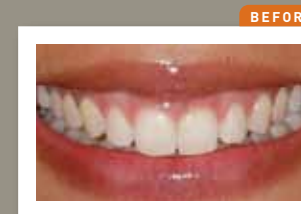

WHAT IS INVOLVED IN A CONSULTATION?

Since many people are anxious, we make the first visit a noninvasive visit. During that time, we learn about you and outline our capabilities and share with you examples of cases we have completed.

Above and beyond

Dr. Broome designed his office to look and feel like a home. Posh accommodations include a dental concierge greeting patients upon their arrival, personal treatment coordinators who guide patients through the smile transformation process, chenille blankets, wireless noise-cancelling headphones, personal iPods loaded with calming spa music, aromatherapy, paraffin wax treatments, massaging ostrich-skin dental chairs and complimentary refreshments. Other amenities, such as flat-screen televisions, sedation, heated pillows, satellite television and on-demand movies, are also available. "Our treatment suites are oversized to promote privacy and total relaxation. When undergoing lengthy procedures, patients are offered complimentary soft-food lunches and refreshing beverages. We view our patients as friends and enjoy surprising them with extra amenities that augment their treatment," says Dr. Broome. "Our goal is to exceed expectations, going beyond what patients ever thought was possible."

CASE STUDY

FAST-TRACKING YOUR RESULTS

Incorporating an all-tissue laser system to eliminate this 25-year-old's gummy smile, Dr. Broome sculpted away unwanted tissue. "I then utilized 10 ultra-thin porcelain veneers to create her dazzling new smile in just three weeks, instead of the more conventional time of 12 to 16 weeks," says Dr. Broome.

“your smile is the ultimate accessory”

LOCATED IN THE HEART OF CHARLOTTE IS THE ALL-ENCOMPASSING COSMETIC DENTAL PRACTICE OF DR. PATRICK J. BROOME, A COMPREHENSIVE FACILITY DEDICATED TO RENEWING SMILES, RESTORING CONFIDENCE AND TEACHING OTHER DENTISTS.
